PROFESSIONAL SUMMARY

I am a fullstack software engineer and solutions architect with a BSc in computer science and over 5 years of experience deploying applications. I currently work as a Solutions Architect and Software Engineer at Infinity Trust Mortgage Bank, designing scalable systems and optimizing backend services. At Orion Limited, I built industry-grade applications for large factories, and at Branddrive (50k+ users), I implemented core analytics. I also mentored developers at AI Technologies. I am eager to meet the needs of your organization.
